2. Comments to Authors

The organization of paper was good and need to address the following

1. Dont use the word project instead use ,In this work
- In abstract mentioned keywords size will be reduce to 6 to 8.
2. In introduction also change the project aims to
3. References order need to mention sequentially like [1][2]... but in paper it was random
4. For data set information specify sample images and emphasize only data related information like number of samples, size etc.,
5. Dont write as mathematical justifications instead specify mathematical model or algorithm as per content.
6. Not ARCHITECTURAL DESCRIPTION instead write it as proposed work/Architecture.
7. Model Output explanation required
8. Results comparison required

The overall work was good but as per the mentioned points need to revise paper
